SINGLE HEAD EMBROIDERY MACHINE

RAJDHANI TECHNOLOGY

Specification

- **Head & Color: Single head, 12 colors, or 15 colors**
- **Embroidery Area: Y 500mm* X 1200mm**
- **Features: Suitable for embroidering on flat surfaces, caps, garments, shoes, belts, bags, etc.**
- **Computer: Dahao A15 or Top wisdom 510 with a 10-inch touch screen**
- **High definition true color, user-friendly interface, with a USB port**

Specification

- Maximum Speed: 1000 RPM
- Language: Supports multiple languages - English, Spanish, French, Italian, Russian, etc. (total 13 languages supported)
- Design Formats: Compatible with formats such as DST, DSB, etc.
- Memory Capacity: 100 million stitches, Stitch range: 0.1 mm-12.7mm
- Auto Functions: Auto thread trimmer, auto color change, auto thread break detection
- More Functions: Trace with laser, Save Start Point, 28 built-in font libraries
- Power Supply: AC 110-220V, 50-60Hz self-adaptable, DC36 safe voltage output

Specification

- Standard Accessories: Cap frame, aluminium frames, table, along frames, tool box & spare parts
- Optional Devices: Sequins, cording, beads, pearls, laser cutting, thermal cutting & boring device
- Weight: Net weight: 200kgs, Gross weight: 220kgs.
- Packing: Wooden packing Size - L 1480*W1130*H880mm.

Device

- double sequins device to the embroidery machine enhances its capabilities for sequins embroidery work. This feature allows for more intricate and detailed designs, providing flexibility and creativity in the embroidery process.

Sequins device

Sequins device working

Device

- That's a valuable addition to the embroidery machine's capabilities. The cording device allows for specialized embroidery work, particularly for Dori work. This feature enables the use of various types of silk threads, providing versatility in creating intricate and textured designs.

Device

- That's a valuable addition to the embroidery machine's capabilities. The beads device allows for specialized embroidery work, particularly for pearls, beads.

BEADS DEVICE

Computer dahao A15

Embroidery Machine Control System:
- Dahao A15 or Top Wisdom 510
  - Equipped with a 10-inch touch screen
  - High-definition true color display
  - User-friendly interface
  - USB port for convenient data transfer
